

The “3 Pillars” Approach to R&D

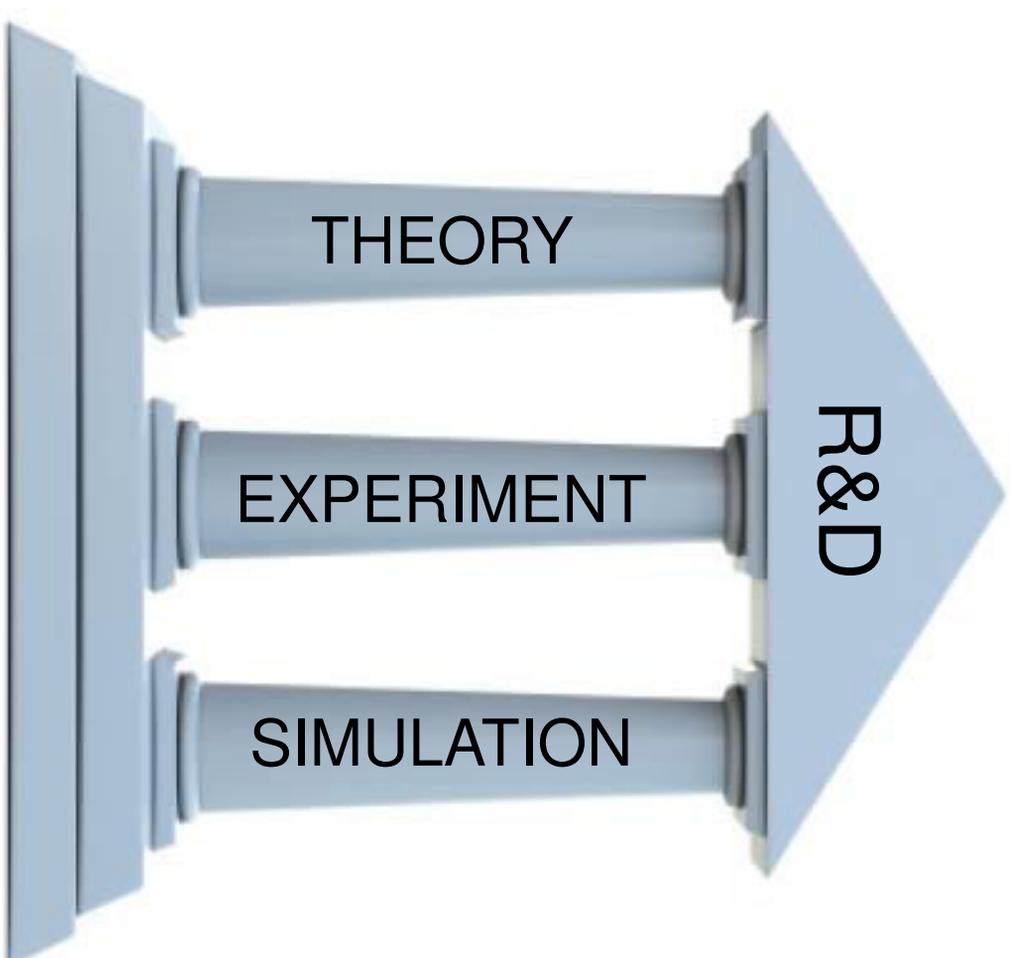

Barbara Montanari

Principal Scientist

Leader, Theoretical and Computational Physics Group

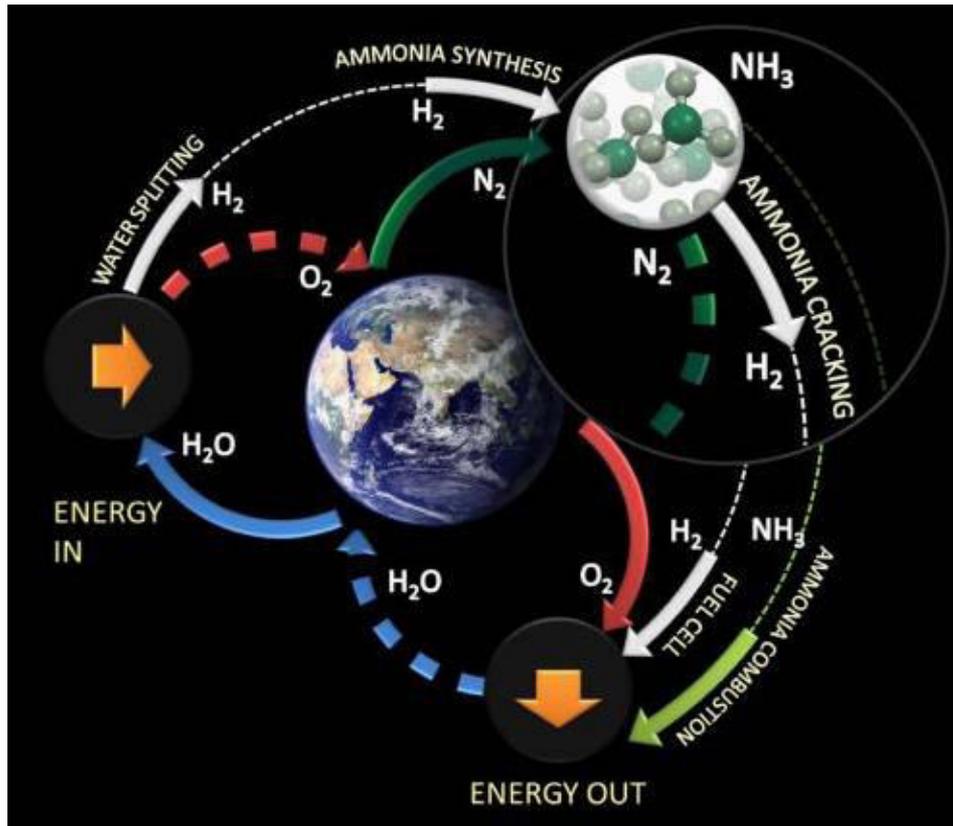

Deputy Head, Applications Division

The Three Pillars

Energy & Environment

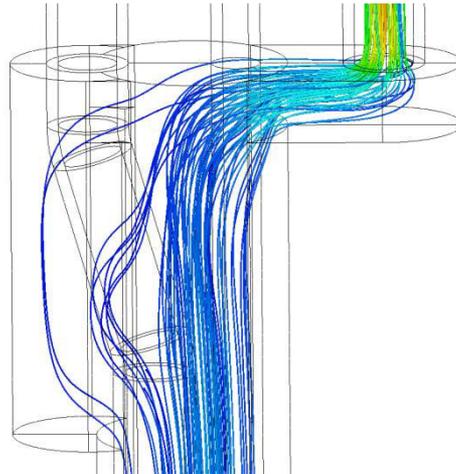

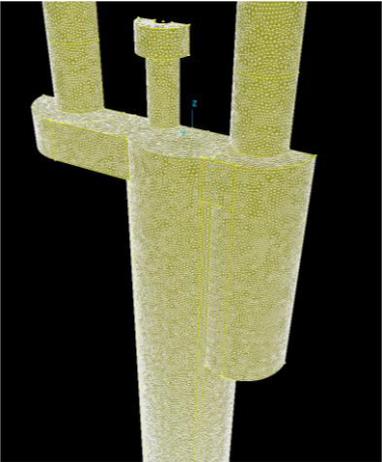

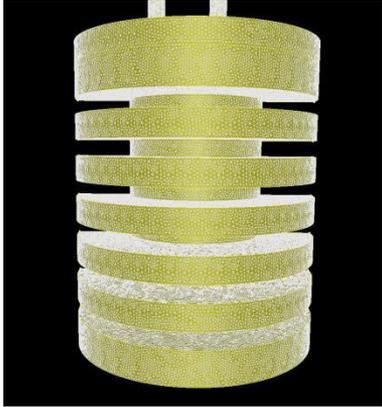

Game changer in the use of hydrogen as a "green" fuel.

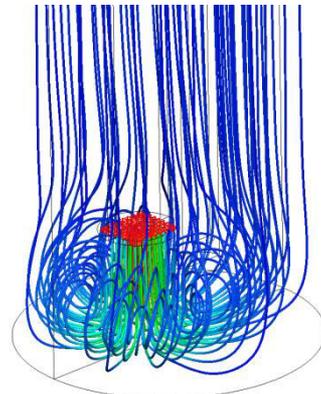

Dr Martin Jones and Prof. Bill David (ISIS)

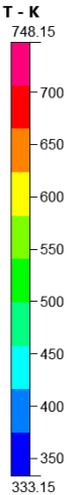

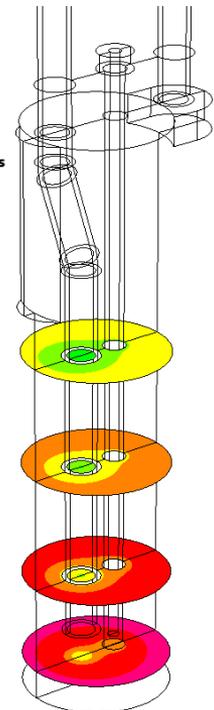

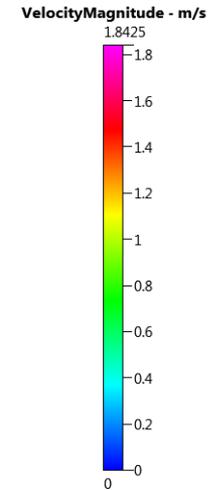

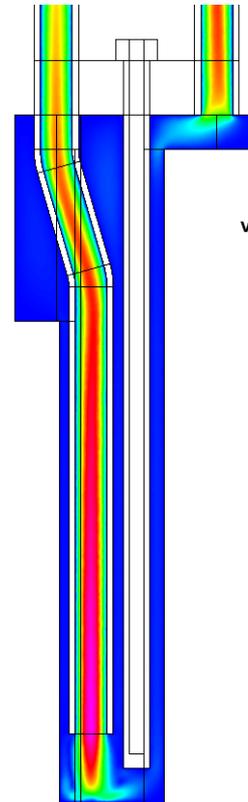

Computational Fluid Dynamics Simulations of the Reactor

Upper part of reactor

Lower part of reactor

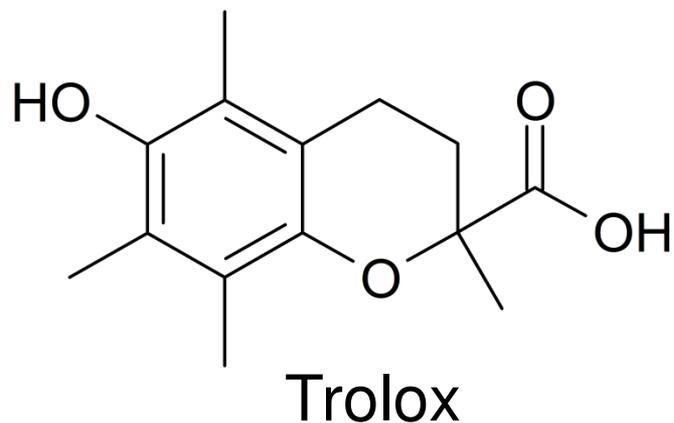

4

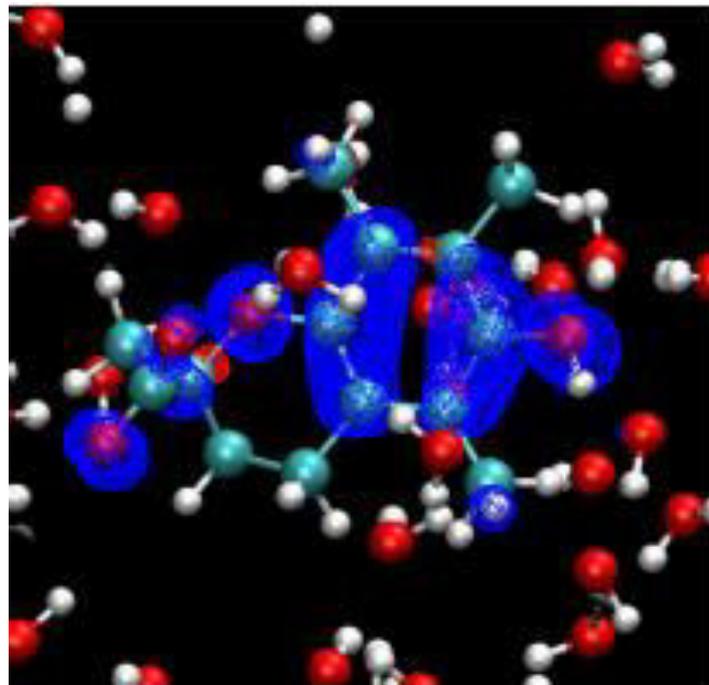

Science & Technology
Facilities Council

D. Emerson & R. Barber (SCD)

Healthcare: Antioxidants

- Ab initio Molecular Dynamics
- Thermodynamics
- Chemical Reactivity

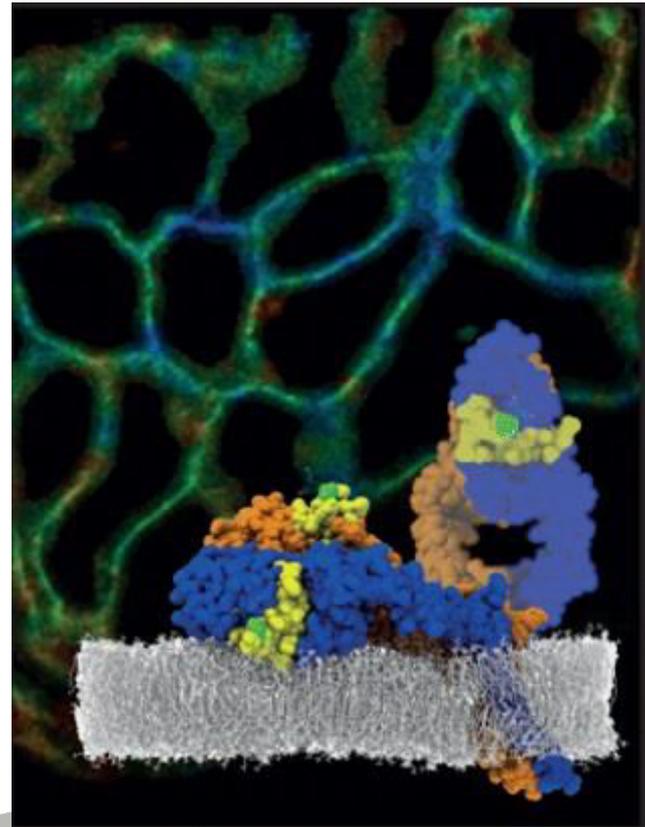

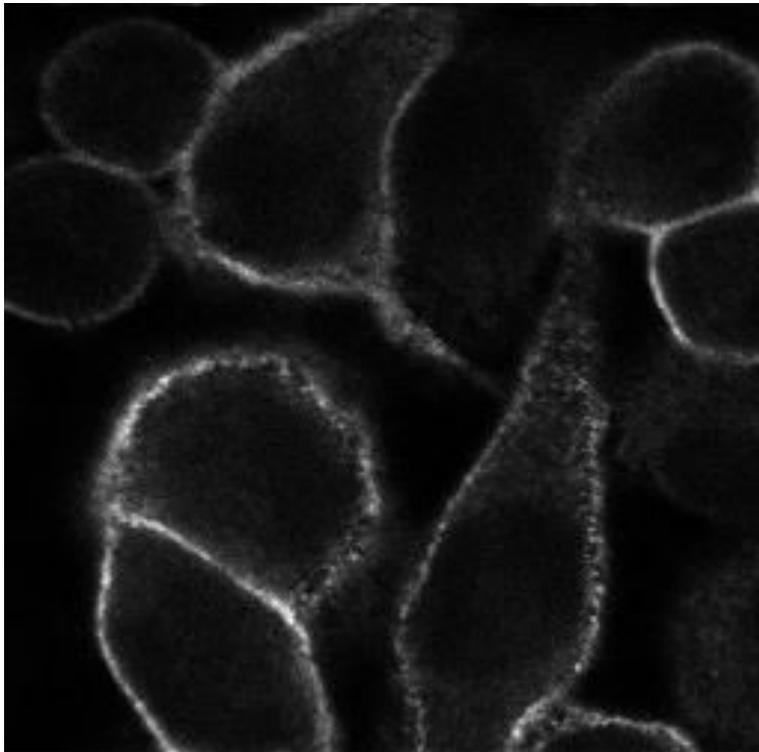

T. Parker (CLF)
L. Bernasconi and B. Montanari (SCD)

Science & Technology
Facilities Council

Healthcare: Cancer Care

CLF/SCD Study of Epidermal Growth Factor Receptors

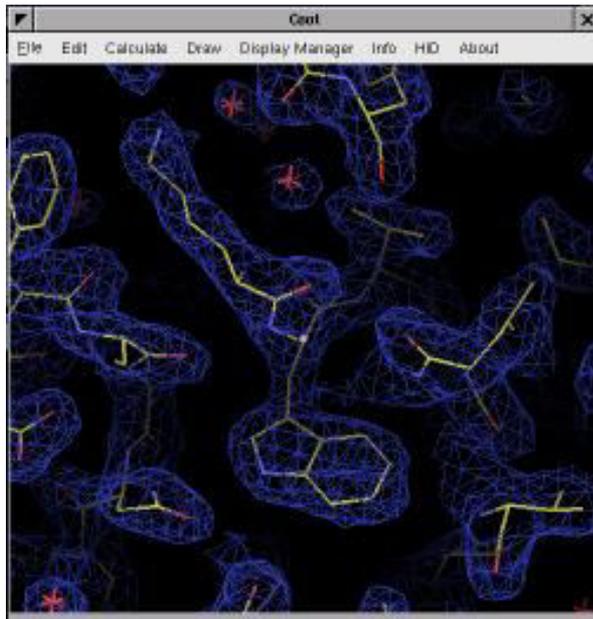

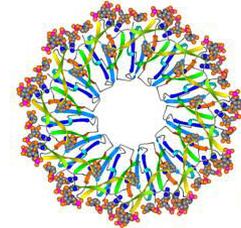

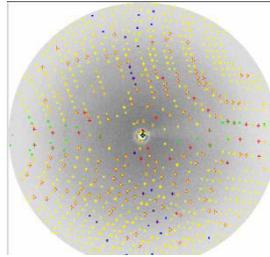

Science Signalling (2014)

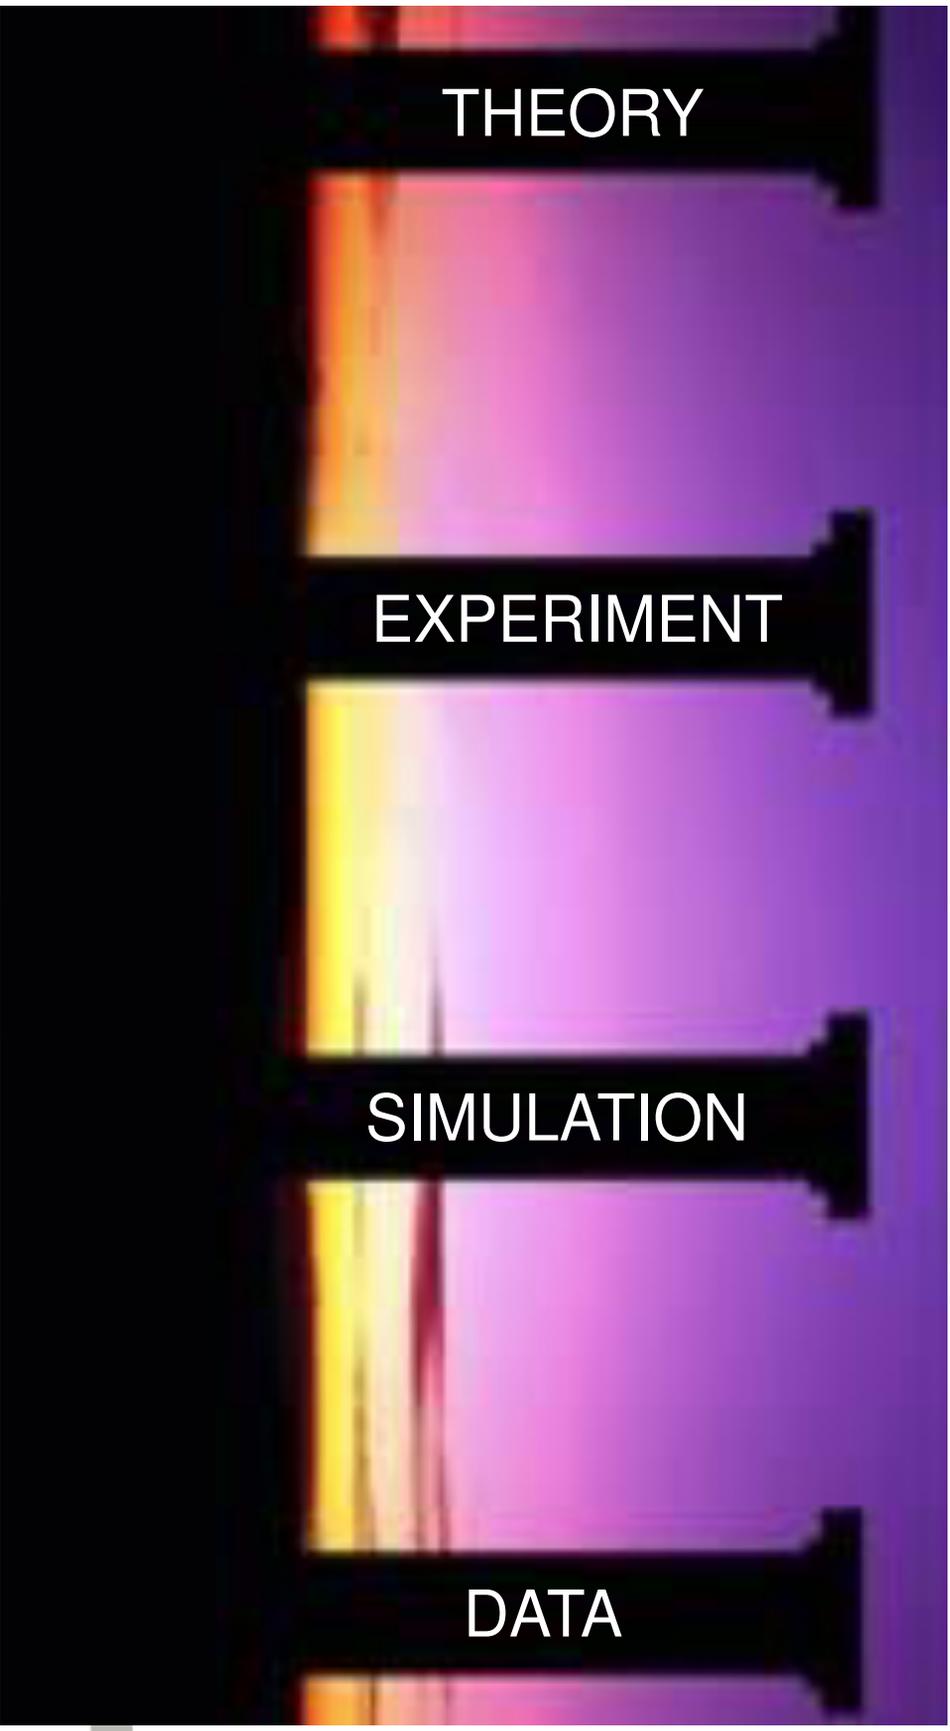

Science & Technology
Facilities Council

Healthcare: Protein Structure

Data analysis for
macromolecular X-ray
crystallography

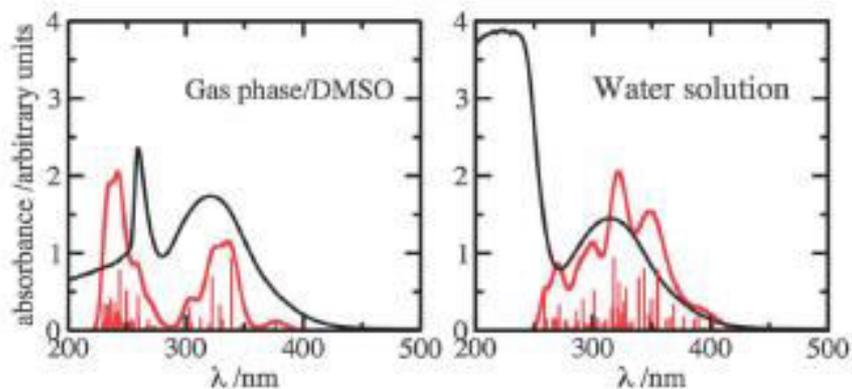

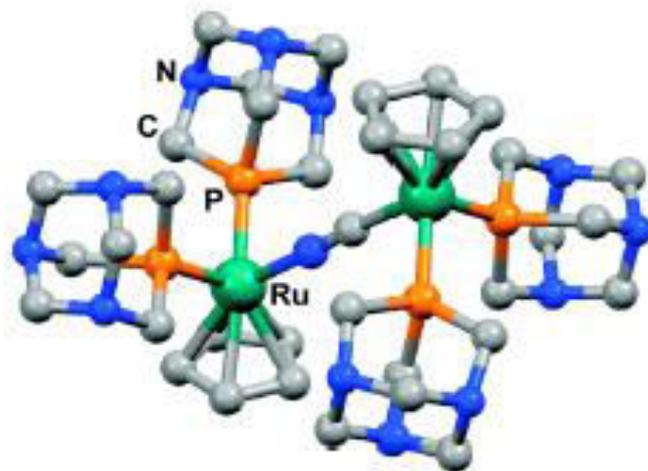

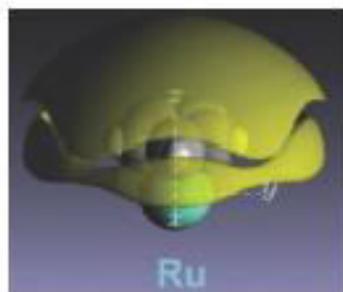

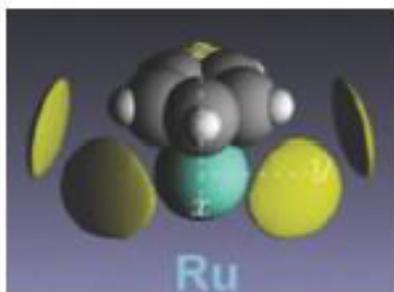

The Future: Four Pillars

Environment

Environmentally friendly homogeneous catalysis

- CRYSTAL (L. Bernasconi, SCD)
- SANDALS (S. Imberti, ISIS)
